Language Exchange
Field Trips

Italiana

The South Australian Italian Association (SAIA) is pleased to assist in the placing of Italian language teachers in selected SA schools for up to 9 months to support and enrich Italian language programs through the provision of contemporary linguistic and cultural support.

Language teachers are native speakers of the Italian language and proficient in English and support qualified language teachers.

Language teachers can also be asked by SAIA to participate in resource development, student language immersion workshops and teacher professional learning.

SAIA manages the “Progetto di sostegno alla lingua italiana nelle scuole”, including recruitment of teachers, school application processes, payment of the teachers’ salary and professional learning support during their placement.

This year we are placing an Italian teacher to assist the language teacher in the following schools:

- Valley View Secondary School
- Roma Mitchell Secondary College

This program is made possible by the funding assistance of the Italian Government via the Ministry of Foreign Affairs and International Cooperation (MAECI). We wish to also acknowledge the organisational assistance of the Consulate of Italy in Adelaide and the South Australian Italian Teachers Association (SAATI)
